**RE: Matt Nohr**

Dear Frank,

I would like to take this opportunity to express my gratitude for assigning Matt Nohr to the Monterey County Health Department Project. Working with Mr. Nohr is considered to be one of the best architectural experiences in my 32 years of being in the construction industry.

His dedication to the project has been demonstrated in various ways. This project's change orders are less than 1%, which indicate exceptional contract documents. His responsiveness to RFI's and Submittals is phenomenal; turnaround is often the same day. Matt has maintained clear and open communication throughout the building process which is reflected in his interactions with the customer and contractors. His willingness to go the extra mile is demonstrated through his proactive actions finding workable solutions to problems as soon as they appear.

Matt's diligence and commitment to quality communication and production have significantly aided in bringing this project down to its final months without any major anticipated issues in design and process.

It has truly been a pleasure having Matt Nohr on the team. The project is better because of him.

Sincerely,

A handwritten signature in blue ink that reads "Dan Noce".

Dan Noce  
Senior Project Manager
